

Tucson Pima Collaboration
To End Homelessness

YOUTH HOMELESSNESS DEMONSTRATION PROJECT (YHDP)

Request for Proposals
Collaboration Roundtable
May 5, 2020

ROUNDTABLE AGENDA

1. Background & Event Purpose
2. Tips for Collaboration
3. Highlighted Opportunity: Arizona Serve (AmeriCorps)
4. Agency Presentations
5. Q&A

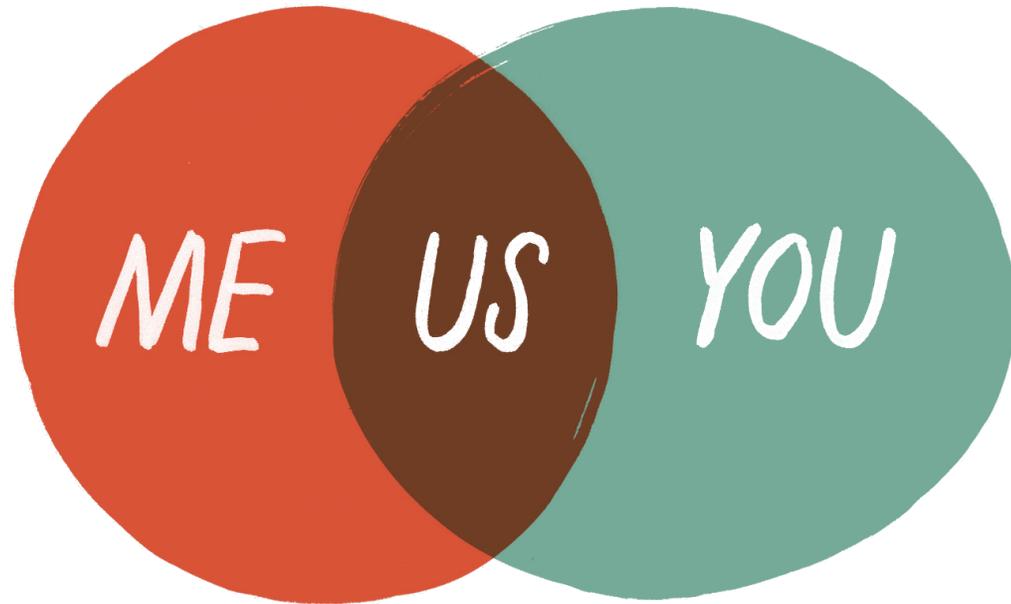

YHDP SHARED VISION

We envision communities and systems throughout Tucson/Pima County in which the **causes of youth homelessness are disrupted** and its **solutions are permanent**. This requires **radical systems change** built on **intersectional equity** and **youth power**. In these systems, young people drive **individual housing solutions** and hold **equal power** at all levels of community decision-making.

YHDP FUNDING AVAILABLE

Project Type	YHDP Available Amount (2 Years)	Eligible for Annual Renewal
Peer Outreach, Engagement, & Advocacy	\$156,000	\$78,000

Rapid Rehousing	\$1,930,000	\$965,000
Permanent Supportive Housing	\$504,000	\$252,000

WHY COLLABORATE?

- Collaboration brings new partners to the table to work in coordination with proven service agencies.
- Collaboration acknowledges and centers the need for multiple perspectives within project design and implementation.
- Collaboration brings the expertise and capacity of multiple organizations to the table to benefit project participants.
- Collaboration allows organizations to share responsibility for swiftly implementing and effectively managing large housing and service projects.
- Collaboration builds the field and supports innovation, resource-sharing, and community-driven solutions.
- Collaboration expands the pool of supportive peers and adults, resources and assistance to which participants have direct and/or leveraged access through a project.
- Collaboration supports the multi-sector approach of the TPCH Coordinated Community Plan.

TIPS FOR EXPLORING COLLABORATION

1. Conduct a SWOT analysis with agency staff and youth familiar with your programs. Be honest and thoughtful about the organization's opportunities to improve.
2. Seek collaborative partners that mitigate threats, balance weaknesses, and help to actualize opportunities.
3. Be flexible and responsive to new ways of working. The YHDP is an opportunity to test and demonstrate new models.
4. **Involve youth in the process.**

The YHDP initiative requires agencies to dig deeply into issues of equity and inclusion. Our call for collaboration acknowledges that no single agency has the expertise, experience, or capacity to do this work effectively on their own. We will learn and improve together.

Arizona Serve of Prescott College
